## Overland Automobiles

Model 75 is only \$850 f.o.b. Toronto.

Call on us for a demonstration of this Car.

SCOLLARD and HEGY  
AGENTS, ALDERSON.

## Funeral of Olga Hoidge

A large number of sorrowful friends gathered at the Methodist church on Friday afternoon at 3 o'clock, to be present at the funeral of the late Olga Hoidge. A very impressive service was conducted by Rev. Taylor and several hymns suitable to the sad occasion were sung by those present. Miss Edna Gish presided at the organ.

A large number of friends followed the casket to Alderson Cemetery where interment took place. A. J. Drummond acted as Funeral Director. The pall bearers were: Benoit Leitel, Glen Hildahl, Barton McDiarmid, Robert Gish, Herbert M. Johnson and W. D. MacKay. The floral tributes were particularly beautiful, the casket being almost completely covered. Included were the following: Wreath from the Ladies Aid, Anchor from the Alderson Public School, Sprays from Mr. and Mrs. A. J. Drummond, Mr. and Mrs. Geo. Russell and Mrs. Al Cole. A very large and beautiful Pillow with the words At Rest was presented jointly by the following ladies and gentlemen: Mrs. F. J. Brown, Mrs. F. C. Wood, Mrs. Wood, Thornton, McEwen, Scollard, Hegy, Johnson Bros., Stuart, Thompson, Hall, Riddell, Irvine, Stubbs, Beatty, Steele, Dixon, Nelson, Roy Dahl, Clark and MacKay.

## Card of Thanks

The undersigned desires to acknowledge the many kindnesses he has received and to return thanks to the friends who have shown so much sympathy during his bereavement. T. B. Hoidge

## Dr. McEwen Leaving

The announcement by Dr. S. F. McEwen on Wednesday that he would be leaving town next Wednesday for Calgary to accept a remunerative position in the office of the C. P. R. Physician, there was the cause of much regret on the part of the citizens. The News is informed that strong efforts to retain the Doctor will be made. The News will welcome Communications on this important subject.

## Cupid Busy Again

Fred Walker brought a winsome bride to town Tuesday in the person of Miss Freda Irena Dyer. The wedding took place at the home of the bride, Ponoka, on Monday April 3rd at noon. Rev. R. T. Haight formerly of Alderson officiated. Best wishes to the Newlyweds.

Another Whist Drive will be held this Friday evening, when all are invited to be present.

## Motor Accident

As a result of the car she was driving last evening turning turtle on the hill near Harrison's farm, Mrs. Frank Steed lies in the Hotel Alderson with her right arm broken and badly bruised about the face and shoulders. There were in the car at the time six people. Besides Mrs. Steed there was Mrs. Oscar Tweeten, Miss Madge Steed, Mrs. L. Brenner and her two little tots.

By some miracle of good fortune all these were thrown completely clear when the car turned over and sustained only slight bruises. Mrs. Steed was pinned under and it was some time before she was extricated. Luckily Harry W. Johnson happened along and rendered aid and came into town post haste for Dr. McEwen. The Doctor had Mr. Steed brought into town and this morning reset the arm. Mrs. Steed is under the circumstances doing quite well.

The News congratulates the party its comparative escape from what might have been a terrible accident and again it must show every one how we should strive to retain the Doctor.

## John Strevell Dead

His many friends in the Bluegrass district will regret to hear of the death in the Holy Cross Hospital, Calgary of Jno. Strevell from a severe attack fever. His brother George and several friends attended the funeral in Calgary on Tuesday.

## In the Jungle

A second Lynx has been shot in this district in a few months. L. Lemna shot a female of the species last fall. On Tuesday Howard Brennan who works for E. G. Gish at the Kinnisvie farm, shot a big male, possibly a mate of the first. The coat is said to be a regular prize.

## Buy Cars

Scollard and Hegy, agents for the Overland report the sale of two more cars this week one to Jno. Lahd of Bluegrass and one to the C. F. Starr Lumber, Co.

The results of the sales of the Model 75 Overland fully proves the good judgement of Messrs Scollard and Hegy in choosing this up-to-the-minute car as the best on the market to-day at the price, \$850.00 F. O. B. Toronto.

Place your order, early.

## F. J. Brown.

# THE ALDERSON NEWS

ALDERSON, ALBERTA

Published in the interests of Alderson and district every Thursday by  
W. D. MacKAY, Proprietor.

Card of thanks, 50 cents. Local ads among reading matter, 10c per line first insertion, 5c per line each following insertion. Announcements of entertainments, etc., conducted by churches, societies, etc.,

SUBSCRIPTION: \$1.50 per year

THURSDAY, APRIL, 6th, 1916

## Clean Up

An Exchange that reaches our desk every week advises the readers to clean up their yards. The Exchange states that already this spring a typhoid epidemic has broken out in Lethbridge. Preventative measures might save this. The drayman for a small charge will cart away the refuse.

## Appreciation

Last year a Tide Lake man took out subscriptions for a couple of friends in the States. When the subs. run out they were discontinued, following the regular custom of the News. The first copies subsequent to the cancelling of the subs brought letters from the parties who had grown interested in Alderson and district wanting the paper continued. They had never been visited by the News before. They interested them. We could not be any more just for this district. Are you giving the News the support it deserves? Thank You!

## COMPARE MANITOBA WITH NEBRASKA

A Contrast: no Example—How Manufacturing can be Developed in Agricultural Area—A Lesson to Manito

Nebraska has an area of 76,845 square miles, as compared with Manitoba's 245,225 square miles. Nebraska's population in 1900 was 1,064,300. The population of Manitoba is now under 500,000. Omaha, the principal city of Nebraska, with a population to-day of about 163,000 last year, manufactured goods to the value of \$55,265,000, an increase of \$8,000,000 over the previous year. In the last four years this city has gained 115 per cent. in the volume of manufactured products. The amount of capital invested in manufacturing in Omaha is now \$1,264,000. Wages paid to workers have increased 30 per cent. in four years, and over \$15,000,000 worth of raw materials were used by Omaha factories during 1914. The six other cities in this state show what manufacturing has done. Lincoln has 49,000 population, Grand Island 13,000, Hastings 11,000, Beatrice 10,500 and Fremont 10,000. The figures given are on a very conservative estimate by a committee of the United States Bureau of Census at Washington.

Industries vs. Imports  
It seems evident that Nebraska has developed her industries instead of developing her imports. Here cities have passed the "barrenness" stage. Surely self-interest would suggest to the Western Canadian that he buy the products of his own country, or goods made in the West for Western needs. If he can buy them of equal quality at equal price with anything else on the market, and if it is salubrious, self-reliance, and if it is surely a better and broader Canadianism to face our problems of national development, suggesting in a common task and standing together. If we are to develop we must support our home industries, we must show a self-reliance and good will to our country. If we give the foreign manufacturer and foreign worker an equal opportunity with the Canadian manufacturer and Canadian worker, it is evident that the foreigner gets the best of the deal because the Canadian producer is accorded no similar favor in the foreign market such as are granted foreign goods in the Canadian market. Shall we have manufacturing centres or merely distributing centres? Shall we steadily reduce our population by driving the worker and his family to where factories are a part of the economic system? Shall we reduce the home market to the minimum and kill a close and ready demand for the product of our farms? These things are a result of importing goods instead of making them, or buying by mail instead of buying at home, of dragging down instead of developing our Western cities, towns and villages. The development of manufacturing, the purchasing of Canadian-made goods, and the patronizing of the home-town store are a vital element in the welfare and progress of both city and rural community. Let us learn a lesson from Nebraska!

Down to Realities  
Canadian, and Western Canadians in particular, must take the Nebraska lesson to heart. The war has brought us all down to realities. If we are to be secured of a normal legitimate growth in Western Canada in the years to follow the war all of us will have to see to it that we do our share to stimulate this growth. We must give thought to where the goods we purchase come from; whether Canadian workmen are benefitting by our purchases as much as they should; and whether the policy we are supporting is one calculated to sustain on a reasonable basis the farming and manufacturing industries, which, in co-operation, are essential to national success.

How Canada Has Profited  
The figures show plainly enough how Canada has profited by that Democratic reduction of the tariff which was especially heavy on many of the commodities brought from the Dominion. It appears that last year we imported from Canada goods worth \$16,685,000, which was \$46,000,000 more than in 1913, \$50,000,000 more than in 1912, 60,000,000 more than in 1911, and \$65,000,000 more than in 1910. On the other hand, our exports to Canada were \$70,000,000 less than the preceding year. Canada is selling us a great deal more than ever before and what she sells comes into direct competition with the products of American farms, forests and factories, and the Democratic tariff helps her in it. That tariff works much more to Canada's advantage than any reciprocity arrangement would have done. —Tror, N.Y. Times.

Let us forget, remember that free trade means direct competition with the lowest wages paid everywhere in the world.

## THE COLUMN--:-

### --:-That Gets Results

WANTED—At once, Party to drill in about 20 acres. What offer? Apply Box H. News.

LOST—Between Aldersons and Flannerys on the trail in December a tan Sheepskin. Finder please return to Isaac Lemma, Tripota.

## Buy an Irrigated Farm FROM THE IRRIGATED PACIFIC RAILWAY

BECAUSE Irrigation makes the farmer independent of rainfall and insures good crops, not occasionally, but every year. Irrigation makes possible the successful culture of alfalfa, the king of forage, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community. Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied. You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record

## A FOREMOST DUTY OF CITY FATHERS

Practical Suggestions For Every Municipality—Must Help to Keep Labor Busy

The Kingston "Standard" a few weeks ago advanced the suggestion that every city and town should have a bureau to encourage "Made-in-Canada" goods. Developing the idea the editor pointed out that money spent by public officers for the good of the public should serve the good of the public by being invested in what makes work for Canadians. There are cases in this country of councils and boards of works turning down Canadian tenders even when they were lower than foreign tenders; or because they were a few dollars higher; or because they wanted to try experiments; or because they feared that the factories which paid taxes into their own civic treasury could afford to beat up business abroad. Happily, such cases are not now as frequent as they used to be.

The civic employers and spenders of Canada as a whole, have got it strongly into their heads that it is far more important to have labor busy in factories and able to spend as a "Made-in-Canada" goods than to have labor tramping the streets looking for charity or work. It is better to have men busy on some thing that represents a fair investment of labor than busy on work that is done by a corporation just on purpose to keep men from being idle.

A skilled mechanic may be able to handle a shovel on a piece of road-work. But he won't do it as well as the man that's brought up on the shovel. His power to work depends on the thing he does. When he is at a job that does not suit him he wastes his labor. The civic government that does not help to keep labor busy in its own factories, or factories elsewhere in Canada, is neglecting a golden opportunity to help along a movement that keeps civic governments from having bad economic problems on their hands. Every citizen of the government in Canada should be a civic headquarters for the purpose of "Made-in-Canada" goods.

THE MAN THAT HAS A  
MADE-IN-CANADA SALARY  
SHOULD HAVE  
MADE-IN-CANADA TASTES

## NICKEL AND NICKELS

New Light on a Live Question—Everybody Can Help

Thousands of tons of Canadian nickel are at the present time in the armory-plats of Germany as ships, as well as of British and French and Austrian and Russian. From our mines near Copper Cliff, Ont., we have shipped out this nickel to the United States to a crude form to be refined and re-shipped by American companies to the markets of the world. Up till the past couple of months nobody could have raised any objection to this as a matter of business. Canada had a corner on a very useful article. She sold it to the world.

But at the present time there is not an ounce of nickel plate in any German armament on the Kiel canal or at Essen or anywhere else that Canada would not gladly take back and pay the cash price to keep it in this country, until the war is over. That's practical patriotism just as selling the nickel abroad was practical business.

If we are so sensibly concerned over the nickel sold to the enemy in times of peace, let us be as sensibly and vigorously concerned about the nickels and the dollars we have been sending out of this country to buy things made by foreign labor, paying foreign dividends for the sake of foreign homes. If we Canadians are really in earnest we can repair all damage resulting from the export of our nickel to Germany—by refusing to spend our money for foreign-made goods. We can't get back this nickel. But we can stop all nickels and the dollars and the money from going abroad after this nickel. If, as a matter of business, we helped the enemy in a time of peace, as a bigger matter of business we can help ourselves in a time of war by keeping our own money in this country to keep Canada prosperous.

**PERHAPS you do not realize how many lines of "Made-in-Canada" goods are better than the imported, or how often it is profitable as well as patriotic to buy things made by your own countrymen.**

## MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by the Land Titles Act, under a certain Mortgage which will be produced at the time of the sale,

There will be offered for Sale by Public Auction, at the Great West Hotel, in the Village of Alderson, in the Province of Alberta on Saturday, April 15th, 1916, at the hour of 12 o'clock noon, the following property, namely:—

The South-east Quarter of Section Sixteen (16) in Township (18) Eighteen and Range Nine (9) West of the Fourth Meridian in Alberta, reserving unto His Majesty, his successors and assigns, all mines and minerals and the right to work the same.

Terms of sale to be twenty (20) per cent cash at the time of sale, and the balance according to the terms and conditions of Sale, or upon application to the undersigned auctioneer.

The above property will be offered for sale subject to a sealed reserve bid and free from all encumbrances, save all Municipal Claims and Statutory Liens, if any, and taxes for the current year.

The Vendor is informed that the above property is situated about seventeen miles south from the railroad station of Jenner, that about 50 acres have been broken and were in crop last year, and that there are situated thereon a shed roof shed about 10 ft. x 12 ft., and about one and one half miles of wire fencing.

For further particulars and conditions of sale, apply to

HARRY W. JOHNSON,  
Alderson, Alberta.

Dated this 4th day of March A.D. Approved 1916.

(Sgd.) A. T. Kinnaird,  
Deputy Registrar.

## MORTGAGE SALE OF FARM PROPERTY

Pursuant to the directions of the Registrar and by virtue of the Powers of Sale provided by the Land Titles Act, under a certain Mortgage which will be produced at the time of Sale,

There will be offered for Sale by Public Auction, at the Great West Hotel, in the Village of Alderson, in the Province of Alberta, on Saturday, April 15th, 1916, at the hour of one o'clock in the afternoon, the following Property, namely:—

The North-west Quarter of Section Five (5) in Township Sixteen (16) and Range Ten (10) west of the Fourth Meridian in Alberta, reserving unto His Majesty, his successors and assigns, all mines and minerals and the right to work the same.

Terms of Sale to be Twenty (20) per cent cash at the time of sale, and the balance according to the terms and conditions of Sale, or upon application to the undersigned auctioneer.

The above property will be offered for sale subject to a sealed reserve bid and free from all encumbrances, save all Municipal Claims and Statutory Liens, if any, and taxes for the current year.

The Vendor is informed that the above property is situated about three miles from the town of Alderson, that about 100 acres have been broken of which 75 acres were in crop last year, and that there are situated thereon a two-story frame house about 14 ft. x 18 ft., two kitchens 12 ft. x 14 ft. and 10 ft. x 18 ft., and a frame dog stable about 20 ft. x 34 ft., and that said land is partly fenced.

For further particulars and conditions of sale, apply to

HARRY W. JOHNSON,  
Alderson, Alberta.

Dated this 4th day of March A.D. Approved 1916.

(Sgd.) A. T. Kinnaird,  
Deputy Registrar.

## GROWING CROPS ON STUBBLE LAND IN 1916

*The Empire's Demands for food are greater this year than last. Less summer-fallow and less fall ploughing than usual in 1915 make it necessary that the farmers of the Prairie provinces in 1916 shall sow extensively on stubble land*

MR. J. H. GRISDALE, Director, and the Superintendents of the Dominion Experimental Farms, urge the following upon the Farmers:

### STUBBLE LAND OF FIRST CROP AFTER FALLOW

Turn stubble thoroughly as soon as surface is dry. Fire about noon time when steady wind is blowing. Cultivate at once about two inches deep, then sow the wheat and harrow immediately afterwards. If possible, where area is large, harrow first, then cultivate, seed, and harrow again. In Eastern Saskatchewan sow 15 bush. per acre; in Western Saskatchewan 14 bush. On light soils and dry lands sow 14 bush. last.

### STUBBLE LAND OF SECOND CROP AFTER FALLOW

Turn stubble land should be summer-fallowed, but this year much of it must be 1st crop. Burn stubble if possible. This may be helped by cutting or fire freely over the field. Weep and looking about the end of a field again. Do it again if possible. Set on fire and also on stubble and stubble. Carry on in open field. If stubble is too light to burn then cultivate, harrow and seed a little lighter than above. Oats and barley will do better than wheat. If above drills are used plough instead of cultivating. Plough, mark or roll, and then harrow, if land is grassy or weedy. In the drier sections at least one-half of all crops on land should be summer-fallowed every year.

### STUBBLE LAND OF THIRD CROP AFTER FALLOW

Do not sow to grain, but summer-fallow. Better use your spring labour on other stubble land and thus make sure of crops in 1916 and 1917. Put your labour on land that is likely to give best returns.

### SEED

Buy only clean, plump seed of tested variety. Use the fanning mill thoroughly and treat seed for smut. Have horses, harness and machines in good shape before starting work.
